MID-AMERICA HEARING CENTER

It is always great to hear from our patients about the life-changing impact of hearing aids

ML says "Just got a pair of hearing aids from Mid-America Hearing Aid. I have loss of hearing since a premature birth. In the early years of my hearing loss I was fitted with one aid for one ear, despite needing two. All the aid did back in the 50's was increase volume. Needless to say I did not wear these very long. Finally after 60 years and some urging from good friends, I decided to try aids again. With the aids Mid-America set up for me, I got pretty emotional when I put these on. I can now hear paper rattle when you move it. I heard water running. I heard birds. I heard the coffee maker brewing. I can watch TV without closed captions. I could go on and on but I won't bore people." Thank you for giving Mid-America Hearing Center the opportunity to help!
